

SUMMARY

- As of May 13, 2020, Fulton County has recorded **3,679** cases of the 2019 novel coronavirus (COVID-19) and **149** deaths.
- The central portion of the county (Atlanta metro) has accounted for 46% of the overall case count while northern and southern parts of the county combined have accounted for 42% of the overall case count.
- By city, cumulative COVID-19 diagnoses rates have ranged from 132.7 per 100,000 persons (Johns Creek) to 491.4 per 100,000 persons (Union City).
- Among all persons diagnosed with COVID-19 in Fulton County, 18% have needed hospitalization and 4% have died.

Daily and Cumulative COVID-19 diagnoses in Fulton County, GA (5/13/20)

*Counts shown reflect the number of cases diagnosed as at 5/13/20 using the date of first positive sample collection. Where date of sample collection was not available or missing, the date of report creation in GA SENDSS was used instead. **Note: All data reported are preliminary and subject to change. Delays in data reporting may cause changes in data counts, particularly in the shaded portion.

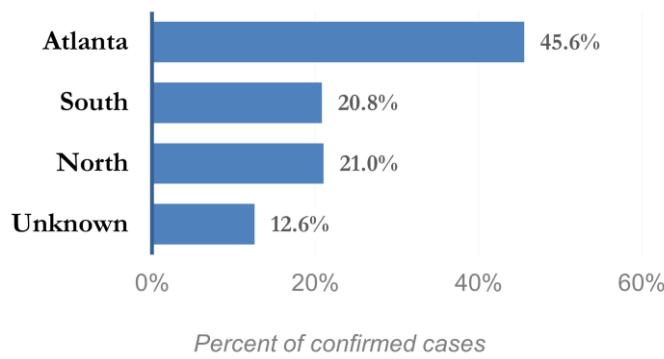

DISTRIBUTION OF COVID-19 DIAGNOSES BY REGION

Fulton Region	% of total cases in Fulton county
Atlanta	45.6%
North ¹	21.0%
South ²	20.8%
Unincorporated/Unknown	12.6%

¹Includes all Fulton County cities north of Atlanta metro (Alpharetta, Milton, Johns Creek, Roswell, Sandy Springs, Mountain Park)

²Includes all cities south of Atlanta (College Park, Chattahoochee Hills, East Point, Hapeville, Palmetto, South Fulton, Fairburn, Union City)

Distribution of COVID 19 cases by Region (5/13/20)

Unknown	445	463	12.6%	-	-

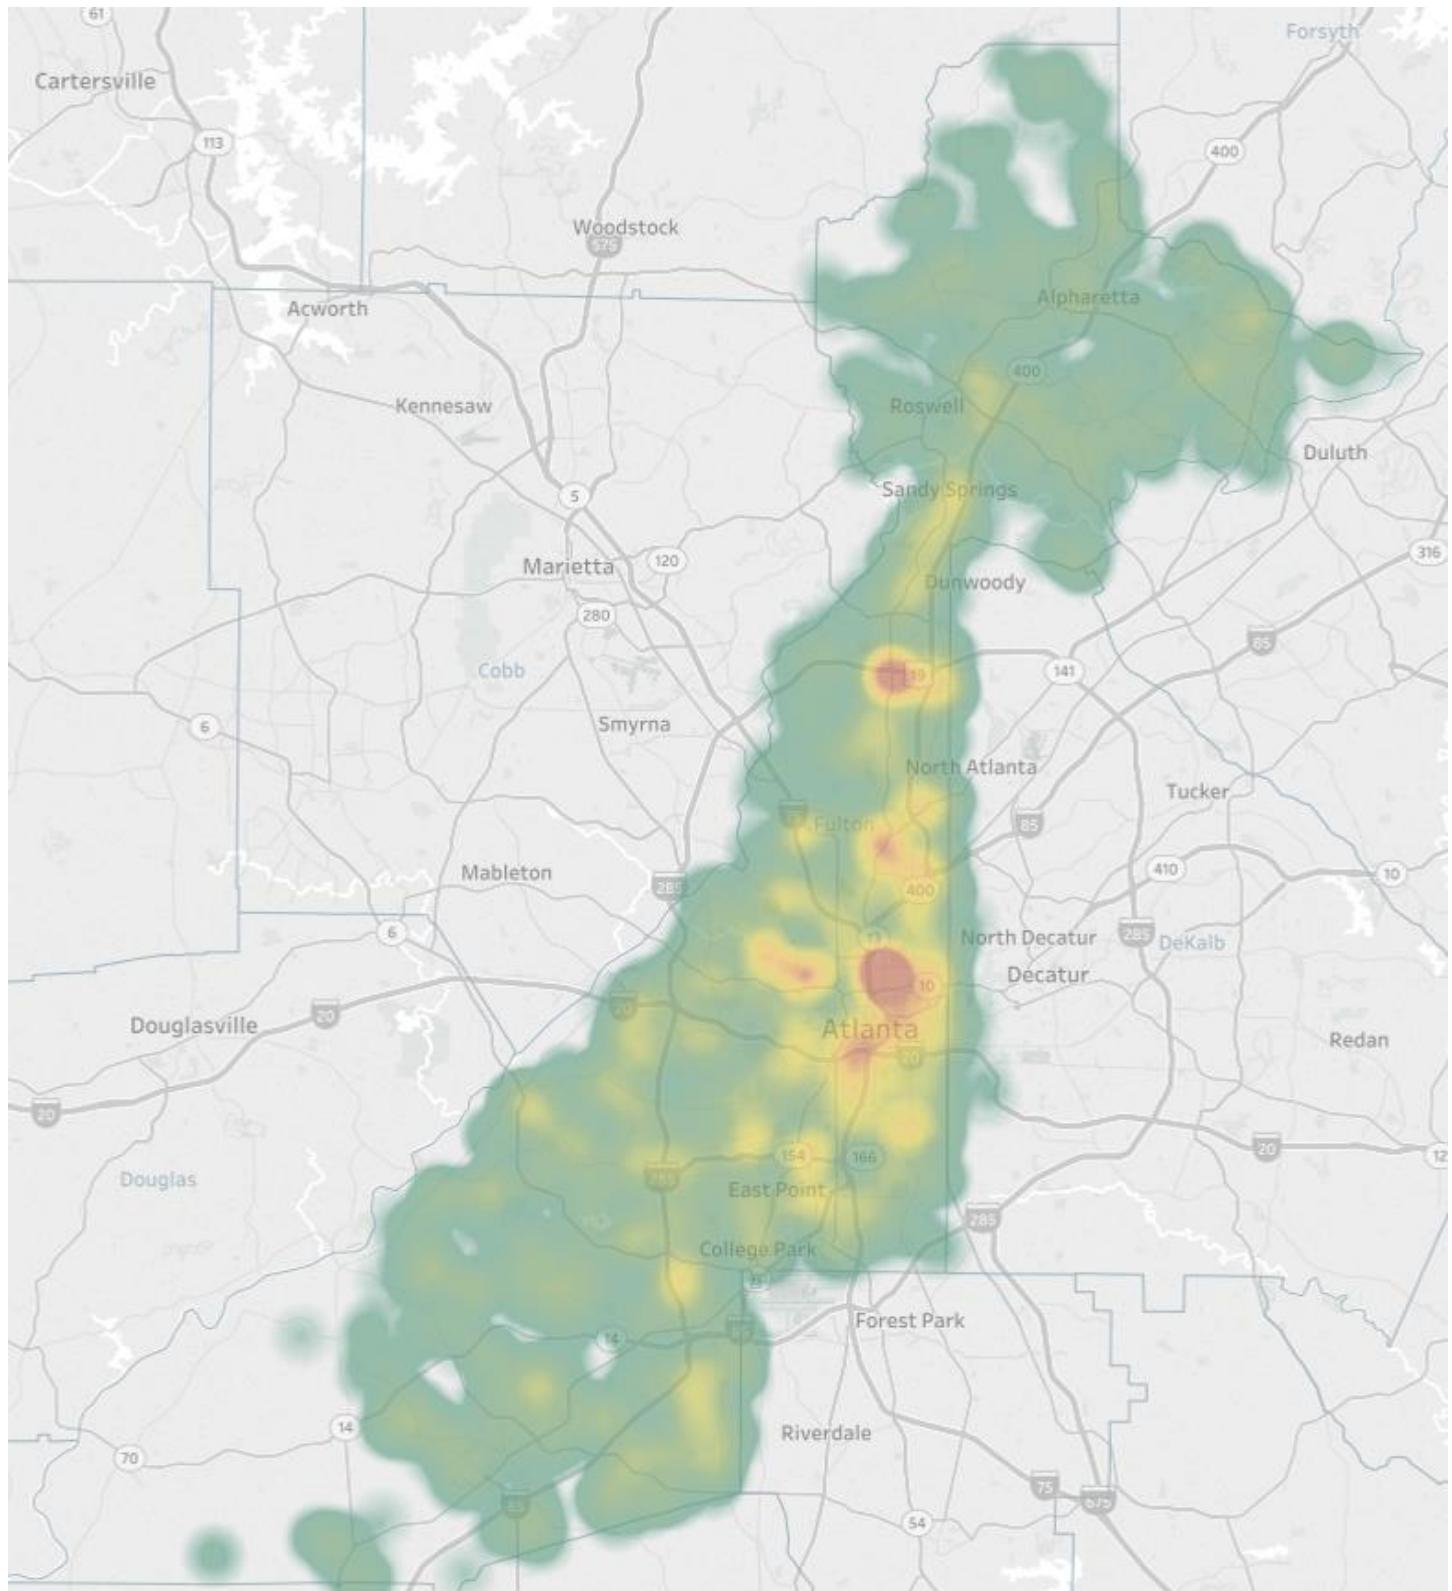

*Population estimates from US Census Bureau used to calculate diagnoses rates. ** Data cleaning (either during the detailed data collection that takes place at case interviews or during the geo-coding process) may lead to reassignment of few cases from one territory to another based on their corrected addresses and these may appear as "decreases" when compared to the previous day's count. These do not reflect errors in the data collection or analysis process but only reflect the minor day-to-day fluctuations in case counts that arise in an evolving public health database like COVID's. Note: All data reported are preliminary and subject to change.
